About Alpine Plant Foods ...

Our plant in New Hamburg, ON continues to service Ontario & Western Canada with rail car shipments.

Alpine Plant Foods Corporation
... Manufacturing Plant ...
New Hamburg, Ontario

The 150+ rail cars, that we have at our disposal, allow us to make product available throughout our growing dealer network.

For the name of a dealer near you, call Terry @ 800-265-2268.

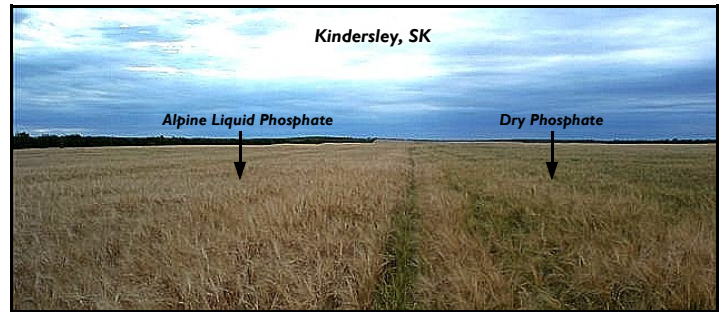

Alpine is always looking for more retail partners, to better help serve all areas in Western Canada. Call us to discuss.

Alpine has continued to grow this past year, with new customers coming on board in Saskatchewan & Alberta. Our Liquid Phosphate Fertilizer is showing itself quite well in Western Canada.

Alpine Rail Car in Lorlie, SK

ALPINE MATURES CROPS FASTER

Alpine Liquid Fertilizer & Micronutrients work extremely well as a foliar application. Ask us about our results & recommendations on Foliar Fertilizer Application. Foliar is a very efficient way to supply a portion of your macro nutrients & some, or all, of your micronutrients.

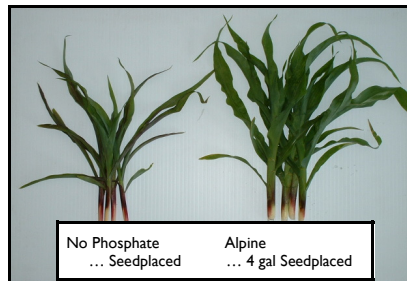

Alpine continues to be dedicated to research & demonstration of our product through our own research programs & in conjunction with independent research firms such as Hamman Ag Research in Lethbridge, AB..

SPECIAL POINTS OF INTEREST:

- 150 railcars available to Alpine
- Continued research in conjunction with independent research companies
- Alpine Liquid Foliar Fertilizer producing amazing results
- Equipment Rebate Program for 2005/2006

Below are plants from a Corn Plot done by Hamman Ag Research.

Two treatments ...one with & one without Alpine seed placed phosphate. ALPINE is your best choice to get your crop off to a quick start. It helps get your crop established & growing quickly. It gives you the best chance at a great finish ... every year!

"Early Purchasing & Delivery" Program

I would like to introduce you to our "Early Buy & Delivery" program. This program has always been a huge success for Alpine & our customers. Fertilizer pricing, be it our raw materials or our finished products, is less expensive to produce in the Fall. Not only is the cost of raw materials less expensive at this time but the more we can sell & deliver before spring, the more efficient we can be with our trucks, rail cars & our personnel requirements. The savings Alpine obtains are passed on to you, the customer, to make the situation a win for all involved. Another benefit is that you will have all your Starter Fertilizer requirements on-farm, ready to go when you are.

*Our November 30th Payment Discount is 8.5% off the spring price
& the September - November Delivery Discount is \$.035/litre or about 5%.*

... that is a 13-14% savings over our spring price ...

Your local dealer or Sales Rep will be around to see you.
If you are not already a customer & are interested in talking to us,
please call Alpine at 800-265-2268.
We will see that your area Sales Rep gets in touch with you.

Alpine has distribution points throughout Saskatchewan & Alberta
