

ALPINE®

ALPINE CRN-S®

Liquid Fertilizer

Guaranteed Minimum Analysis

Total Nitrogen (N) 21%
 2.6% Ammoniacal Nitrogen
 11.4% Urea Nitrogen
 7% Slowly Available Water Soluble Nitrogen
Sulphur (S) (actual) 3%

NET CONTENTS

10 Litres

NET WEIGHT

12.1 Kg

Manufacturer/Supplier:

NACHURS ALPINE SOLUTIONS® ... 800.265.2268
30 Neville St., New Hamburg, ON N3A 4G7

Lot Number/Numéro de lot:

F284

APPLICATION RATE:

	ALONE	WITH PESTICIDE
ALPINE CRN-S®	2-10 litres/acre	2-4 litres/acre

Maximum rate of any combination of nutritional products:

- 10 litres/acre WITHOUT pesticide
- 5 litres/acre WITH pesticide
- 10 gallons/acre minimum water volume when used with a pesticide

ALPINE foliar fertilizers are best used as a supplement to a good nutrition program.
Consult your ALPINE District Sales Manager for a specific rate according to crop condition and nutrition program.

MIXING INSTRUCTIONS:

ALPINE CRN-S can mix with many crop production products:

- In a small container prior to full scale mixing, proportionally mix all the components to confirm compatibility
- Thorough mixing of all blends is important
- Temperature and storage time can influence the degree of success
- Mix only the amount that will be immediately used
- Long-term storage is not suggested

ALPINE CRN-S tank mixing procedures:

- Add ½ of total water to spray tank
- Start recirculation in the tank
- Add micronutrients and/or any other flowable material
- Add any soluble powder, first pre-mixing with water
- Add the recommended amount of ALPINE CRN-S
- Add remaining water volume and continue recirculation prior to spraying

CAUTION: Check compatibility with orthophosphates, high potash suspensions and chemical mixtures.

**THE FOLLOWING CONDITIONS MUST BE OBSERVED IN ORDER TO APPLY ALPINE CRN-S FOLIAR APPLICATIONS.
FAILURE TO FOLLOW THESE INSTRUCTIONS MAY RESULT IN DAMAGE TO THE PLANTS.**

- **DO USE** ALPINE fertilizers under conditions of optimum plant growth including highest humidity, moderate temperature and adequate soil moisture.
- **DO add**, as a minimum, equal amounts of water. Do use sufficient water to provide thorough coverage.
- **DO** consult with your local ALPINE distributor to determine pesticides which are compatible with ALPINE fertilizer.
- **DO** add wettable or soluble powders, emulsifiables or flowables to water in the mix and wet, dissolve or disperse before adding ALPINE fertilizer.
- **DO** consult your local ALPINE DSM for rate and application instructions.
- **DO** use a small jar or container prior to full scale mixing to proportionally mix all the components to confirm compatibility.
- **DO NOT** use when the crop is under stress from pests, heat or inadequate soil moisture.
- **DO NOT** apply by aircraft if surface wind is greater than five miles per hour to assure adequate crop coverage and droplet disposition.
- **DO NOT** spray to run off.
- **DO NOT** spray to visible droplet coalescence.
- **DO NOT** allow concentrated spray mist to run off fruit or leaves.
- **DO NOT** apply during the heat of the day.
- **DO NOT** mix with calcium containing products unless the calcium is fully EDTA chelated.
- **DO NOT** mix fertilizers with hard water. Mixing with hard water may cause clogging of lines due to the combining of calcium, magnesium and iron in the water with phosphate in the fertilizer.
